

CITY *of* CALABASAS

February 21, 2024

A message to the readers...

The scenic story of our City Calabasas, conveyed by a forty-year resident Devendra Mishra, who migrated to the USA over five decades ago, is a gift to all of us who are committed to embracing the uniqueness, charm, and character that make our community amazing. The world traveler, entertainment industry executive and professor of Pepperdine, viewed the Calabasas City Walk over three years as an antidote to the COVID-19 pandemic when Devendra captured the beauty unseen with mindfulness and sense of discovery.

The Calabasas Lake, the pristine Commons without the clutter of cars and people, the Farmer's Market on Saturday, the historic Leonis Adobe Museum at Old Town are just a few glimpses from our City's richly illustrated coffee table book Devendra published.

This artwork reflects our emotions in every corner of our dynamic City. We are truly humbled to be the inspiration behind such an incredible journey of one resident's creative mind. All of us at the City of Calabasas are proud to have Devendra Mishra as part of our Calabasas community.

Sincerely,

Alicia Weintraub  
Mayor  
City of Calabasas

David J. Shapiro  
Councilmember  
City of Calabasas
